Contains rules and advice for improved effectiveness in written and oral English and a section explaining common grammatical errors

This book covers the fundamental concepts of data mining, to demonstrate the potential of gathering large sets of data, and analyzing these data sets to gain useful business understanding. The book is organized in three parts. Part I introduces concepts. Part II describes and demonstrates basic data mining algorithms. It also contains chapters on a number of different techniques often used in data mining. Part III focuses on business applications of data mining.

This book reflects the paradigm shift now manifesting in Bangladesh's education system by highlighting recent empirical research. It shares essential insights by presenting research conducted on diverse aspects of current day education in Bangladesh, including policy and governance, equity, access and participation, curriculum and pedagogy, assessment, and education programs and projects run by NGOs. Further, it offers a platform for these unique studies to be showcased and disseminated to scholars and researchers from developing and developed countries alike, and represents a unique reference resource for the education research community in Bangladesh, Asia and all over the world. With Foreword from Professor Serajul Islam Choudhury.

This series seeks to synthesize the essentials of traditional grammar and the main aspects of communicative functional grammar.These books help students to form correct sentences and use the language effectively in real-life situations.Special attention has been given to the points of structure and usage which are a problem to non-native speakers of English

The research reported here is an investigation of bilingual instruction in Bangladeshi schools. In particular, the thesis explores how schooling takes place when a second language is used as a medium of instruction to teach subject content. The study is based on a corpus of 44 hours of video recordings from real-life classroom interaction at two Bangladeshi schools in two metropolitan cities. The age range of the students is 9 to 13 years. Using multimodal conversation analysis, the thesis analyzes the participants' practice – as it emerges through mundane classroom activities – and thereby examines participants' language use in the presence of an existing language policy. The findings show how everyday instructional activities are accomplished in classrooms, especially the pedagogical focus on clarifying subject content and vocabulary. It further highlights that the interrelation between classroom interaction and language policy is informed by the participants' use of embodied resources and the surrounding material ecology. The dissertation contributes to the growing literature on social interaction in bilingual classrooms and the wider field of bilingual and multilingual pedagogy. Den här avhandlingen undersöker tvåspråkig undervisning i skolor i Bangladesh, med särskilt fokus på hur ett andraspråk, engelska, används för att undervisa ämnesinnehållet. Studien är baserad på videoinspelningar av klassrumsinteraktioner i två skolor i Bangladesh belägna i två storstäder. Åldern på de deltagande eleverna är 9 till 13 år, och den totala inspelningstiden är 44 timmar. I avhandlingen analyseras deltagarnas – både lärares och elevers – pedagogiska interaktion in situ, det vill säga så som de uttrycks i de faktiska klassrumssituationerna. Med hjälp av multimodal konversationsanalys undersöks vilka strategier deltagarna använder för att utföra klassrumsarbete mot bakgrund av skolans språkpolicy om att enbart kommunicera på engelska. Resultatet visar hur den faktiska undervisningen går till i klassrummen, och särskilt det pedagogiska fokuset på att förtydliga ämnesinnehållet och utöka ordförrådet. Avhandlingen bidrar till forskningen om social interaktion i tvåspråkiga klassrum och till den växande kunskapen om två- och flerspråkig pedagogik. ???????? ???????????? ???????? ????????? ??????,???? ??????? ???????????? ???????????
