Australia's best-selling interactive First Aid learner guide, featuring over 30 QR-coded videos throughout the text. Using QR code technology, this book also becomes a video library making learning more enjoyable. Author, John Haines is an ex MICA Flight Paramedic with over 30 years experience in First Aid provision and teaching and this book is seen as the book for delivery of tuition in First Aid Australia wide. Mapped to HLTAID003 Provide first aid (Australian Nationally Accredited unit) for compliance, this book meets ASQA audit requirements.

IMO sales no.: T113E.

Learner Guide for nationally-recognised accredited training: Course in the Emergency Management of Asthma in the Workplace and Course in First Aid Management of Anaphylaxis.

Emergency medicine textbook on identifying and treating cardiac emergencies, includes interpretation of ECGs, use of ultrasound in diagnosis, identification of arrhythmias, shock, syncope, post-arrest syndrome and much more.

This New American Red Cros CPR/AED for the Professional Rescuer Participant's Manual and course reflect changes based on the 2005 Consensus on Science for CPR and Emergency Cardiovascular Care (ECC) and the Guidelines 2005 for First Aid. Changes to this program and manual include simplifications to many of the CPR skill sequences, which helps improve retention. There have also been changes to help improve the quality of CPR. The integration of CPR skills into the operation of AEDs had changed to help improve survival from sudden cardiac arrest. Professional rescuers are now trained to use AEDs on adults and children. Information has been updated and added to this program to help professional rescuers administer epinephrine, aspirin and fixed-flow-rate oxygen. The skills learned in this course include adult, child and infant rescue breathing, conscious and unconscious choking, CPR, two-rescuer CPR and adult and child AED. Additional training can be added to this course including bloodborne pathogens training and emergency oxygen administration. While the skills and knowledge that professional rescuers use are increasing, this training will help you meet your most important responsibility as a professional rescuer- the responsibility to save lives.
