A shadow has fallen over the Tressian Republic. Ruling families -- once protectors of justice and democracy -- now plot against one another with sharp words and sharper knives. Blinded by ambition, they remain heedless of the threat posed by the invading armies of the Hadari Empire. Yet as Tressia falls, heroes rise. Viktor Akadra is the Republic's champion. A warrior without equal, he hides a secret that would see him burned as a heretic. Josiri Trelan is Viktor's sworn enemy. A political prisoner, he dreams of reigniting his mother's failed rebellion. And yet Calenne Trelan, Josiri's sister, seeks only to break free of their tarnished legacy; to escape the expectation and prejudice that haunts the family name. As war spreads across the Republic, these three must set aside their differences in order to save their home. Yet decades of bad blood are not easily set aside. And victory -- if it comes at all -- will demand a darker price than any of them could have imagined.

Traumatic experiences leave a "living legacy" of effects that often persist for years and decades after the events are over. Historically, it has always been assumed that re-telling the story of what happened would resolve these effects. However, survivors report a different experience: Telling and re-telling the story of what happened to them often reactivates their trauma responses, overwhelming them rather than resolving the trauma. To transform traumatic experiences, survivors need to understand their symptoms and reactions as normal responses to abnormal events. They need ways to work with the symptoms that intrude on their daily activities, preventing a life beyond trauma. Dr. Janina Fisher, international expert on trauma, has spent over 40 years working with survivors, helping them to navigate the healing journey. In Transforming the Living Legacy of Trauma, she shows how the legacy of symptoms helped them survive and offers: - Step-by-step strategies that can be used on their own or in collaboration with a therapist - Simple diagrams that make sense of the confusing feelings and physical reactions survivors experience - Worksheets to practice the skills that bring relief and ultimately healing
