NLX 2500/700 w/Mitsubishi M730BM control: need help with ...

First we started to turn on the A - axis. We didn't know how to use the axis and we tried to do the part in a different way, but know when we prepared the machine with the tools to use the milling machine in 3 axis the machine can t be used. It s working but when i press the start button nothing's happend. I understand that i need to put some parameters and to follow some steps but i m lost ...
