Practical Cnc-Training for Planning and Shop: Part 3a ...
CNC: Computer Numerical Control. CNC stands for Computer Numerical Control. CNC refers to the process by which a machine converts a plan, usually a Computer Assisted Design (CAD) into a part. The CAD is the design for a new part; CNC is the method the machine uses to create that part. Thus, a CNC machine uses an instruction program to cut, drill, or shape a piece of material to meet certain specifications, without human operation.
