Liberation Technology brings together cutting-edge scholarship from scholars and practitioners at the forefront of this burgeoning field of study. An introductory section defines the debate with a foundational piece on liberation technology and is then followed by essays discussing the popular dichotomy of liberation versus "control" with regard to the Internet and the sociopolitical dimensions of such controls. Additional chapters delve into the cases of individual countries: China, Egypt, Iran, and Tunisia.

Bartels's acclaimed examination of how the American political system favors the wealthy—now fully revised and expanded The first edition of Unequal Democracy was an instant classic, shattering illusions about American democracy and spurring scholarly and popular interest in the political causes and consequences of escalating economic inequality. This revised, updated, and expanded second edition includes two new chapters on the political economy of the Obama era. One presents the Great Recession as a "stress test" of the American political system by analyzing the 2008 election and the impact of Barack Obama's "New New Deal" on the economic fortunes of the rich, middle class, and poor. The other assesses the politics of inequality in the wake of the Occupy Wall Street movement, the 2012 election, and the partisan gridlock of Obama's second term. Larry Bartels offers a sobering account of the barriers to

change posed by partisan ideologies and the political power of the wealthy. He also provides new analyses of tax policy, partisan differences in economic performance, the struggle to raise the minimum wage, and inequalities in congressional representation. President Obama identified inequality as "the defining challenge of our time." Unequal Democracy is the definitive account of how and why our political system has failed to rise to that challenge. Now more than ever, this is a book every American needs to read.

Edited by two of the world's leading analysts of post communist politics, this book brings together distinguished specialists on Bosnia-Herzegovina, Croatia, Macedonia, Slovenia, Serbia/Montenegro, Albania, Bulgaria, and Romania. The authors analyse the challenge of building democracy in the countries of the former Yugoslavia riven by conflict, and in neighboring states. They focus on oppositional activity, political cultures that often favour strong presidentialism, the role of nationalism, and basic socioeconomic trends. Karen Dawisha and Bruce Parrott provide theoretical and comparative chapters on post communist political development across the region. This book will provide students and scholars with detailed analysis by leading authorities, plus the latest research data on recent political and economic developments in each country.
