Surgilig AC Ligament. ' Surgilig ' was developed by the Nottingham Shoulder Unit and was first

File Type PDF Surgical Technique Shoulder

introduced in November 2001 as a method of addressing failed ACJ surgery but has gained popularity in the last three years as a primary method of stabilizing the disrupted ACJ. This artificial ligament provides a strong, flexible and permanent solution to AC Joint dislocations, with

File Type PDF Surgical Technique Shoulder

The indication for reverse shoulder arthroplasty (RSA) is most commonly rotator cuff disease in association with glenohumeral arthritis. Some surgeons recommend a superior approach when open surgery is used for rotator cuff repair, while others prefer an anterior deltopectoral
