The Next Decade: Where We've Been . . . and Where We're . . .

The Next Decade is a 2010 book by George Friedman, who addresses the United States' relationships with other countries and the state of the world in general throughout the 2010s. The main theme of the book is how the American administrations of the 2010s will need to create regional power balances, some of which have been disturbed. Friedman conceptualizes America's successful management of world affairs not by directly enforcing countries, but by creating competing relationships, which offset o

The Next Decade (book) - Wikipedia

If they aren't dealt with, the next new decade could lead to a new era of global conflicts, as nations begin to go to war over farmland and water. Unless something changes our course, the years 2030 to 2039 will be the dawn of an era of war.
